

CRAFTLANDER LIGHT WEIGHT ALUMINUM DOCKS

Manufactured by
NUCRAFT METAL PRODUCTS

Our White See Through Sectional Dock

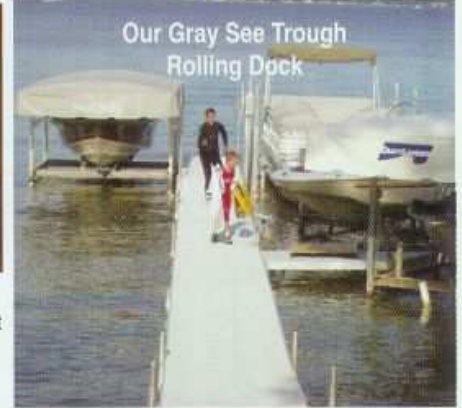

Patented NuCraft Crossarm - top.

Easier to adjust, won't crack or slip. More stable than standard cast clamps. "LIFETIME WARRANTY" on breakage due to normal use.

Standard crossarm with cast stringer and crossarm clamps - bottom.

Our Gray See Trough Rolling Dock

OUR CEDAR AND PINE DECKING

Our 10' long wood dock sections have 21 boards per section and are screwed together underneath. What does that mean? Smaller gaps between boards and less chance of boards coming apart. **COMPARE!** 2', 3' and 4' wide available. 10' long standard, 8' also available.

Cedar "Top Quality wood decking"

Premium grade Pine Decking

ALUMINUM DECKING

3' and 4' wide available. 10' long standard, 8' also available.

Anodized Aluminum Decking welded on back side for quieter step.

PLASTIC SEE THRU DECKING (White & Gray)

4'-0 wide available. 10' long.

Close up view of deck with a 5 step Craftlander stair. 4, 5, 6 steps available.

Plastic deck with wood, foam bumpers and a 5 step Craftlander stair.

Bottom view showing construction

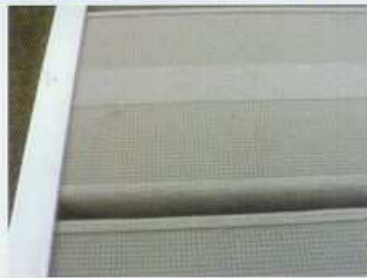

RECYCLED PLASTIC DECKING

2', 3' and 4' wide available.

Close up view of deck. Non skid surface

Bottom view showing construction. Stainless screws with aluminum supports.
